

MEDIA RELEASE – 1 August 2022

SUCCESSFUL PORT MACDONNELL COMMUNITY COMPLEX SCHOOL HOLIDAY PROGRAM

As the July school holidays came to an end, so did the holiday craft program at the Port MacDonnell Community Complex (PMCC). It was another successful program with crafts available every day.

The program saw the return of special Monday craft activities. Polymer beads were a hit week one which turned into some interesting jewellery creations. Other activities during the first week included pool noodle monsters, games bags and weaving craft.

The second week of the program began with biscuit jars as Monday's special craft. Rock paintings followed which were turned into lovely photo holders. Children also got creative decorating money boxes to take home.

Popular Storytime sessions continued on Tuesdays throughout the break with visitors joining regular locals for some morning entertainment.

The Youth Area was incredibly busy for the full 2 weeks. Teens utilised the PMCC as a space to come together while hiding from the inclement weather and various gaming consoles and the pool table also got a great workout.

For more information about holiday activities, contact the Port MacDonnell Community Complex on 8738 3000 or pmcc@dcgrant.sa.gov.au.
