

Mayor's Christmas Message

The year seems to have raced by so quickly and as we prepare for a busy Festive Season, now is the time to reflect and to give thanks.

In particular to our family and friends who support us, and acknowledge the progress and successes we have made through the year.

I recognise that the Festive Season can be a challenging time for some in our community, and I wish you a new year full of better days. You never know what someone is struggling with, so please be kind this Christmas.

It's been a productive year for us at the District Council of Grant, marked by significant achievements and community-focused projects.

Key initiatives included the Airport Master Plan, developed through extensive consultation with the community and stakeholders. Another notable achievement was the launch of a 3-month trial for 900 households to divert Food Organics and Garden Organics (FOGO) from landfill, with results informing future services.

Major wins for the year included the adoption of the Inner Townships Master Plan, the approval of the 2024-2034 Strategic Management Plan, the completion of shared paths funded by the Local Roads and Community Infrastructure Program, and recognition of the Council's financial sustainability by the Essential Services Commission of South Australia. The announcement of the offshore windfarm zone remaining off Western Victoria was also celebrated by the community.

Looking ahead, 2025 priorities, include implementing the strategic plans into the budget, advancing the Saleyards Transformation Project, and continuing community engagement. Council will consider the Little Blue Lake / Sinkholes Master Plan during budget deliberations.

On behalf of Elected Members and Council Staff, I wish all our residents a very Merry Christmas and all the best for a safe and happy Festive Season.

Council Decisions

Council to provide feedback on South Australian Transport Strategy

The Department for Infrastructure and Transport is developing a Transport Strategy to shape the future of transport for the next 30 years.

At the Ordinary Council Meeting held on Monday 16 December 2024, Council resolved to provide a formal submission to the South Australia Transport Strategy consultation, noting particularly that connectivity for our regions is essential, our population is growing and changing, community safety is critical and our assets need to be resilient and appropriately maintained.

Next Council Meeting: 5:30pm Monday 20 January 2025 in the Council Chambers at 324 Commercial Street West, Mount Gambier.

Visit Council's website at www.dcgrant.sa.gov.au for full Council meeting reports and minutes.

2025 Australia Day Citizen of the Year Award Winners Announced

The District Council of Grant is pleased to announce the 2025 Australia Day Citizen of the Year Award recipients.

A number of high-quality nominations were received for a range of groups and individuals demonstrating outstanding contributions including, but not limited to, long standing community group committee members and volunteers, young business owners, fundraisers, and regional sporting events coordinated by volunteers.

The 2025 Australia Day Citizen of the Year Award winners comprise:

- Citizen of the Year: Jacqui Doloughan - a committed and valued volunteer of the Kongorong community;
- Young Citizen of the Year: Jazmin Bingham - a Youth Minister Advisory Council representative;
- Community Event of the Year: Donovans Easter Market - a beloved annual community event; and
- Active Citizenship Award: Southern Ocean Care Committee - a passionate environmental advocacy group.

District Council of Grant Mayor Kylie Boston said the Awards highlight the passion of our local communities and how every action, large or small, can make a significant impact.

"The Australia Day Citizen of the Year Awards are a reminder that everyone has the potential to create positive change to make our community stronger and more connected. It is important that our community members are celebrated for their commitment over the past year and in most cases over many years of service," Mayor Boston said.

"We are extremely proud of all the individuals and groups who have been nominated and I hope the celebration of our dedicated community members and groups inspires others to contribute positively to the District Council of Grant."

Citizen of the Year: Jacqui Doloughan

For over fourteen years, Jacqui has been a dedicated volunteer and an integral part of the Kongorong community serving as the Secretary of the Kongorong Sportsmen's Club, and Committee Member and Canteen Manager for the Southeast Field and Game Association.

As part of her commitment to the Kongorong Sportsmen's Club, Jacqui was instrumental in organising the Mid South East Football and Netball League Grand Final held at the Kongorong sporting ground in 2024. Jacqui's additional selfless efforts have also been highlighted as she regularly leads dinner efforts at the Club, operates the Club's bar facilities and ensures the safety of club members by driving them home after events.

Beyond her official duties, Jacqui encourages interactions between young and old volunteers by taking the time to mentor young people by teaching them valuable skills like handling a till, managing money, and serving customers. By doing so, Jacqui encourages a culture of teamwork and supporting the spirit of country sport.

Deservingly, Jacqui was awarded Kongorong Sportsmen's Club's 'Club Person of the Year' in 2021 and is now presented as the District Council of Grant's 2025 Australia Day Citizen of the Year Award winner.

2025 Australia Day Citizen of the Year Award Winners Announced

Young Citizen of the Year: Jazmin Bingham

Jazmin is a passionate young person who focusses her energy on advocating for the preservation of the natural environment and understanding local concerns of the community.

As a member of the Youth Minister Advisory Council, Jazmin represents the views of young people within the community by sharing ideas and experiences to shape strategies and youth policy in South Australia. Jazmin also empowers others to take action through her role as a Group Leader and facilitator of the Mount Gambier Australian Youth Climate Coalition fighting for climate justice.

Jazmin has continued to demonstrate exceptional leadership through other volunteering efforts including with the Youth Environmental Council where she assisted raising awareness of endangered Red-Tailed Black Cockatoos through regional communities.

In recognition of Jazmin's environmental work, she recently received the prestigious Muriel Matters Award at Parliament House and is now awarded the District Council of Grant's 2025 Young Citizen of the Year Award.

Community Event of the Year: Donovans Easter Market

For 27 years, the Donovans Recreational Advisory Committee has hosted its annual Easter Sunday Market, a valued community event that continues to grow in popularity.

The Easter Sunday Market is a family-friendly day filled with entertainment for all ages. In 2024, the event attracted approximately 3,500 visitors to the small town with 64 stalls on offer and a pop-up art exhibition showcasing over 60 pieces of local artwork. Other highlights of the 2024 market included an athletics display, an exciting Easter egg hunt, and horse and cart rides.

Following the successful 2024 event, funds raised from food sales were reinvested back into the local community supporting a wide range of initiatives. Organised by the Donovans Recreational Advisory Committee, the proceeds helped fund activities such as catering for a local cricket match, upgrading the community's Post Office box, providing a free catered Christmas lunch, and hosting regular Friday night community get-togethers at the Donovans Community Hall.

The Easter Sunday Market has become a well-known and highly anticipated event in the district and brings together local community members as well as attracting visitors from interstate making the Donovans Easter Market the deserving winner of the District Council of Grant's 2025 Community Event of the Year.

2025 Australia Day Citizen of the Year Award Winners Announced

Active Citizenship Award: Southern Ocean Care Committee

The Southern Ocean Care Committee have been described as demonstrating active citizenship through their respectful approach to advocacy, and dedication to both environmental and community causes.

In 2024, the volunteer Committee formed to passionately back local community and fishing industry in opposing the Federal Government's offshore wind turbine development proposal off the Port MacDonnell coastline, in the effort to protect the district's pristine coastline, marine life, fishing industry, and tourism.

Members of the Committee worked tirelessly to inform and engage the community, emphasising the importance of united action. Their efforts included distributing flyers and organising media opportunities, and over just four weeks, the group gathered approximately 4,500 signatures on a petition later presented to Federal Government representatives.

The Southern Ocean Care Committee's collaborative efforts not only brought attention to a critical local issue but also inspired the community to stand together in protecting the region's unique natural assets for future generations, making the Committee the appropriate winner of the District Council of Grant's 2025 Active Citizenship Award.

All winners will be awarded at a private event on Australia Day Sunday 26 January 2023. Nominees will also be invited to attend the event and be presented a certificate.

Official proceedings from the event will be livestreamed via the District Council of Grant Facebook page.

Port MacDonnell Community Complex Update

Christmas StoryTime and Holiday Craft Program

Christmas StoryTime

Another special edition of StoryTime was held this month in the lead up to Christmas.

Children and parents who visited the Community Complex on Tuesday 17 December 2024 read "Christmas? - That's not Right!" By Candy Bee, sang and danced to classic Christmas Carols including "Rudolph the Red Nosed Reindeer" and "Santa Claus is Coming to Town", and made Christmas themed crafts.

During the session, Mrs Claus made a visit and provided the children with a goodie bag to take home.

Please note that StoryTime will not take place on Tuesday 24 and Tuesday 31 December 2024.

Mount Gambier Regional Airport Update

Airport Master Plan ready for action

The District Council of Grant unveils the final Mount Gambier Regional Airport Master Plan for 2025 to 2035, marking a significant milestone in the progression of the region's aviation industry.

At Council's recent Ordinary Meeting, the final Master Plan was presented and subsequently endorsed for action, commencing in the new year, following extensive consultation.

District Council of Grant Mayor Kylie Boston acknowledged the contributions of community members and aviation stakeholders in the development of the document.

"Feedback received during the consultation process confirmed our Master Plan balances the needs for sustainable regional aviation and aspirations of our community. We appreciate the efforts of those who engaged and participated in this process," Mayor Boston said.

"We also extend our thanks to members of the Aviator's Jury who's expertise and perspectives over the past 12 months were extremely valuable in the initial development of the Master Plan,"

The Aviator's Jury combined airport tenants, people with a passion for aviation and aviation specialists to consider the strengths, weaknesses, opportunities and threats of the Airport, future projects and the facility's overall direction across two workshops, alongside Elected Members and Council staff.

"Together, with the collaboration of aviation professionals and our wider community, we are confident that this Master Plan will guide the growth and development of our Airport over the next decade."

The Mount Gambier Regional Airport Master Plan for 2025 to 2035 describes a variety of short-term, long-term and advocacy projects for Council to action over the next 10 years.

District Council of Grant Chief Executive Officer Darryl Whicker explained the key projects stem from Council's core strategic document, the Strategic Plan 2024 – 2034.

"The Master Plan is our roadmap designed to ensure the continual improvement, sustainability, accountability and growth of the Airport and regional aviation," Mr Whicker said.

"The projects developed complement and help achieve our 5 goals under Community, Economy, Environment, Infrastructure and Council. These projects will also ensure that the Airport remains a key asset for regional travel and connectivity, while supporting tourism and economic development well into the future,"

The Mount Gambier Regional Airport Master Plan 2025 – 2035 describes key short-term projects to achieve in the next 1 to 5 years including, but not limited to, a small playground, increasing renewable energy systems, carpark extension and investment prospectus.

Further long-term projects will be worked towards over the next 5 to 10 years including various runway extensions and resurfacing, development of an onsite commercial precinct and public toilet refurbishment.

The District Council of Grant will also advocate for projects such as an airport history and display trail, flying school and increased tourism throughout the Limestone Coast in partnership with key stakeholders.

"Through strategic planning and ongoing stakeholder engagement we are committed to delivering a high-quality Airport that meets environmental, safety and operational standards."

The final Mount Gambier Regional Master Plan 2025 – 2035 is now available to view on the [District Council of Grant website](#), along with a simplified one page summary.

Mount Gambier & District Saleyards Update

Are you eID ready?

Mandatory electronic identification (eID) for sheep and farmed goats is fast approaching and it is important that South Australian producers understand how eID will impact them and what they need to do to prepare.

1 January 2025 is an important date for anyone who owns sheep or goats – even if they are kept as pets. All sheep and farmed goats born from this date will need to be identified with an NLIS-accredited eID tag before leaving their property of birth. Older sheep and farmed goats can be voluntarily eID tagged now but tagging these animals prior to leaving the property won't be mandatory until 1 January 2027.

For many producers the only change will be changing from a visual tag to an electronic tag. For producers who bring animals onto property directly from another property (P2P movements), there will be a few more things to consider such as scanning equipment and knowing how to complete individual animal transfers on the National Livestock Identification System (NLIS) database.

Producers will not need to scan individual eID tags if buying or selling at a saleyard – this responsibility will lie with the saleyard operator. Similarly, producers do not need to scan animals with eID tags that are consigned to a processor – this responsibility will lie with the processor.

Producers who carry out P2P movements will need to consider the need for scanning equipment in line with South Australia's implementation timeline. From 1 January 2025, producers who conduct P2P movements will need to be ready to scan sheep and goats with eID tags and record individual movements on the NLIS database.

The State Government has a number of funding programs in place to help the supply chain transition to eID.

Producers can take advantage of the eID tag discount scheme that is available for NLIS-accredited eID tags aligned to the year-of-birth colour system.

The \$0.95 discount is applied at the point of sale and is currently on offer for black (2024) eID tags purchased up until 31 December 2024, with white (2025) eID tags available at the discounted price from 1 January 2025 until 30 June 2025.

A rebate of 50% up to a cap of \$0.95 per tag is also available for producers who do not follow the NLIS year-of-birth colour system. The expanded eID rebate includes all eight colours in the year-of-birth system and is available for purchases made between 1 January 2023 and 30 June 2025.

Essential equipment and infrastructure rebates are open for producers, agents, saleyards and processors. The producer rebate covers 75% of the cost of essential equipment for eligible producers who meet the P2P criteria. The maximum amount varies and is dependent on the number of animals moved annually onto a property directly from another property over the past three years.

Head to the Department of Primary Industries and Regions (PIRSA) website to learn more about eID tags, tagging and scanning dates, rebates and more: <https://pir.sa.gov.au/eid>

Works around the district

Outdoor Shower at the Woolwash

A new 2m tall outdoor shower has been installed at the Woolwash Beach in Port MacDonnell.

The outdoor shower has both a full shower and foot wash which both run on a timer at the push of a button.

The outdoor shower will serve beach-goers as a quick and easy way to wash off after having a dip in the beach, only a 40m walk away.

Fire Danger Season Information 2024 - 2025

The 2024-2025 Fire Danger Season has been declared for the Lower South East by the Country Fire Service (CFS) between 1 November 2024 and 30 April 2025.

During the Fire Danger Season, restrictions are placed on lighting fires for the purpose of reducing the chances of large fires starting. These restrictions are escalated when a Total Fire Ban Day is declared.

More information about the Fire Danger Season can be found via the CFS website at www.cfs.sa.gov.au/warnings-restrictions.

Start preparing your home for bushfires today by:

- Keeping all gutters clean and free of debris;
- Mowing, raking and weeding within 20 metres of your home;
- Pruning shrubs and lower branches of trees;
- Having a Bushfire Survival Plan ready and rehearsed; and
- Preparing an Emergency Kit.

More information about how to prepare can be found via the CFS website at: www.cfs.sa.gov.au/plan-prepare/.

Food Organics and Garden Organics

Trial Commencement and Community Consultation

Do you support a future
**Food Organics and
Garden Organics**
kerbside collection service?

900 District Council of Grant households have been selected to take part in a free 3-month trial aimed at diverting Food Organics and Garden Organics (FOGO) from landfill.

The trial also aims to collect data on the feasibility of providing an ongoing FOGO service to residents across the district.

What is FOGO?

FOGO stands for Food Organics and Garden Organics.

It covers all the organic waste we usually generate at home in the kitchen and the garden. Things like food scraps and grass clippings are obvious, however it also includes things like greasy cardboard, shredded paper and dog poo! Refer to the categories stamped on the lid of your green FOGO bin, as well as the fact sheet provided in your information booklet.

What are the benefits of using the FOGO bin?

Landfill is expensive and bad for the environment.

Using a green FOGO bin, food and garden organic waste can be diverted from red rubbish bins.

- reduces your carbon footprint;
- saves space in your red bin;
- reduces the amount (and cost) of landfill needed;
- creates valuable compost; and
- helps create local jobs in the circular economy.

Key FOGO trial dates

 	 	 
WEEK 1 FOGO TRIAL	WEEK 2 FOGO TRIAL	END FOGO PILOT
Monday 2 December 2024	Monday 9 December 2024	Friday 28 February 2025
Red rubbish bin collected	Green FOGO bin and yellow recycling bin collected	Red rubbish bin - final collection

HAVE YOUR SAY

Trial participants will be asked to provide feedback both for or against the FOGO trial.

Other District Council of Grant community members can also provide feedback / express their interest in a future FOGO service.

Community consultation will also take place via Your Say DCG until **5:00pm 28 February 2025**.

Visit Your Say DCG at yoursaydgc.com.au/ to find out more or scan the QR code at the top right of this page.

What's next?

Council staff will review trial data including participation rates and load contamination, volume of waste collection over the trial period and feedback from community consultation. Findings will be presented to Council during the next budget period and shape a potential service.

Dog & Cat Owner Reminders

Last year, over 500 South Australians were admitted to hospital for dog bites because even good dogs have bad days. With some helpful safety tips, many of these injuries could have been avoided. Together let's learn about dog behaviour and bring this number down.

From dogs we don't know to the cuddliest family pet, any dog has the potential to bite for all sorts of reasons. So it's vital we know the situations when and why dogs bite and how we can interact with dogs safely.

Safety tips:

- Always supervise children around dogs at home or in public
- Never enter a dog's territory, like their bed, yard or toy box
- Never startle a dog
- Never touch a dog while it's eating
- Never touch a dog's puppies without the owner's permission
- Never disturb a sleeping dog
- Never put your face near a dog's face
- Teach children to always ask the owner's permission before approaching a dog
- Dogs can bite when they're tired, frightened or annoyed
- When approaching a dog, slowly reach to touch its chest from the side. If it reacts, it's time to back off

For more information about dog ownership and responsibilities, visit gooddogshavebaddays.com.au

Leash Up for dog's sake!

Wondering what to buy your dog for Christmas?

A leash!

Don't let your dog be another statistic, leash up!

Most dog attacks reported to councils happen when dogs are off-leash. Leashing your dog can save you, your dog and others a lot of pain and anguish.

Any dog can bite if it's frightened, feels anxious or threatened. An approaching stranger or another dog can unsettle a normally passive dog. When your dog is on a leash, you have a far better chance of controlling it and avoiding what could become a distressing or tragic situation.

In South Australia, you must keep your dog on a leash no longer than 2 metres unless in an area marked by council signage (some parks and some beach areas).

If your dog is off leash in an approved area marked by signage, it must stay close to you, within your sight and return to you on the first call.

Learn more on the Dog and Cat Management Board's website at dogandcatboard.com.au/dogs/dog-leashing-laws.

External Grant Funding, Programs & Training

Connecting Communities & On-Farm Drought Infrastructure

Connecting Communities Events Grant

The Department of Primary Industries and Regions (PIRSA) is offering the Connecting Communities Events Grant as part of the Family and Business Support Program to support rural communities in South Australia affected by drought and other adversity.

The aim of this program is to support gatherings that encourage communities to come together, share experiences, and reinforce the unity and strength of rural areas.

Grants of up to \$5,000 (GST exclusive) are available to industry, community, not-for-profit, local government and incorporated groups to host events that foster social connections and provide support during these times.

Eligible groups within South Australia include (but are not limited to):

- farmer groups, including Agricultural Bureau branches and farming systems groups
- industry organisations
- community groups such as agricultural show societies, progress associations, sports clubs, service clubs
- local government.

Applications close 5:00pm Monday 31 March 2025.

More information about the training and how to register can be found on the PIRSA website at pir.sa.gov.au/funding/connecting-communities-events-grant

Support is also available by calling 1300 931 314 or emailing PIRSA.Recovery@sa.gov.au.

On-Farm Drought Infrastructure Grants

The South Australian Government has announced \$5 million for on-farm drought infrastructure grants to assist primary producers with preparing for and managing drought conditions.

The program more specifically aims to assist primary producers in implementing infrastructure projects which assist in managing current drought conditions and strengthen drought preparedness.

Eligible farmers will be able to apply for rebates for on-farm improvements including water infrastructure updates, water and fodder storage, stock containment feeding, fencing to reduce grazing pressure, grain and fodder storage, soil moisture monitors, weather stations.

The Government of South Australia is offering a rebate of up to 75% (to a maximum of \$5,000, GST exclusive). Eligible businesses must contribute at least 25% of the total infrastructure cost.

More information about the training and how to register can be found on the Department of Primary Industries and Regions (PIRSA) website at <https://www.pir.sa.gov.au/drought>

Office for Recreation, Sport and Racing's Young Leaders Program

Developing the next generation of sport and recreation leaders.

The Program

40 students between the ages of 15 and 17 from across South Australia will participate in the inaugural Office for Recreation, Sport and Racing Young Leaders Program.

This is a fully subsidised program with no cost to the participant and will be completed over a 6 month period.

Key highlights of the Young Leaders Program include:

Learn

Understand the inner workings of a sporting club, the issues affecting sport and how to make sporting clubs more accessible to the community. Develop your communication skills, leadership and emotional intelligence and undertake sporting medical support training.

Experience

Get first hand experience within a community sporting club and apply your skills and learning practically.

Stay Fit

Be rewarded for your weekly exercise!

Travel

Visit the Office for Recreation, Sport and Racing's new state of the art facility which houses all South Australian Sports Institute athletes.

To register your interest, please contact your relevant Connected and Active Communities Officer:
